

# Boston Commons

The Boston center is ideally located in the heart of the city, overlooking Boston Common, the famous Public Park and gardens. The newly renovated facilities provide students with a comfortable learning environment in America's top destination city for international students. Just a short walk from the center, students can see street musicians perform at Faneuil Hall, take in a free performance of Shakespeare in the park or sample the local seafood at a 200-year-old oyster bar!
